The Evangelism Battle Fitness Test (EBFT)

Please take this test before and after you have read this book. My prayer is that as a result of your reading, your scores before and after will be remarkably different. We want the book to make you supremely fit to enter the battle for souls for the glory of God!

You will remember in the Introduction, an analogy was drawn between evangelism and the smooth functioning of a car. I pointed out that to start an average car, and keep it going smoothly, hundreds of car parts must synchronise and work together perfectly. If just one critical part malfunctions (e.g. the fuel pump), the car stops. From this analogy we can also see that not all parts are critical (e.g. the windscreen wiper on the passenger's side). But, when all parts are working perfectly, the car feels and drives like new. By using this analogy, I wanted us to see the parallels with evangelism. Every person in our church is like a car, and every device of the devil causes a part to malfunction. If we can eliminate all the malfunctions, the car will purr. If we eliminate all the devil's devices, the Christians in our church will begin to fly in evangelism, and you will have helped turn the tide in the battle for souls. The more devilish devices we identify and eliminate, the better our chance of mobilising our people for evangelism. And the more people in our church who purr in evangelism, the better the chance of creating a truly explosive evangelistic culture! The ideal is to have everyone in our church score 100 percent. Please be aware that people in your church who

score poorly can negatively affect the evangelism performance of others in the church.

The intention of the EBFT test is to diagnose your thinking about evangelism. If we can help you think biblically about evangelism, there is a greater chance that you will activate for it personally.

When you take this test for the first time, many of the terms and phrases used will be unfamiliar to you. Please try to answer the questions anyway. When you get to the end of the book and re-sit the same test, I think you will be pleasantly surprised at how your reading has prepared you to activate for personal evangelism in the war for souls.

Critical questions:

Some questions are like the critical parts of a car. If you get these wrong your car just won't start i.e. you'll have little chance of mobilising yourself for personal evangelism. If you are a leader, the consequences of getting a critical question wrong are more severe. Each of these questions is worth 5 points.

Not so critical questions:

Other questions are, like the windscreen wiper on the passenger's side, not so critical. If you get one or two of these questions wrong, they will still affect the performance of your car but they will not stop it completely. However, if you get a number wrong (say more than five), your evangelism car will grind to a complete stop in no time. Each of these questions varies in weighting from 1 to 4. The higher the score, the more serious is the potential problem for evangelism.

Proviso:

Having said this, I think all the questions ought to have a five point rating! As you read through the questions, I am sure you will agree. So please don't get hung up on a particular weighting. You are allowed to disagree with the rating we have given each question.

Instructions:

Answer each question in sequence, by giving your first gut response. Place a tick in one of the boxes provided for each question.

For example:

2.	If we don't feel particularly victorious in our Christian lives, we cannot proclaim the gospel effectively.	Agree	Disagree
		✓	

At the end, mark your test using the answer sheet provided. You will notice when you are marking that we have pointed out (made bold) the critical questions (i.e. the questions that are like the fuel pump on your car). If you fail any questions, please refer to the appropriate section of the book for clarification. The appropriate sections are noted beside each question in the answer section.

The answers to some questions might not be clear cut. With these questions, place a tick in the box which you believe is either mostly right or mostly wrong, or with which you generally agree or generally disagree.

What to do if you did not achieve a perfect score:

Please go back to the appropriate parts of the book for clarification and try to work towards a perfect score. If you are a leader of a church or Christian organisation, aim to bring all your people to the place where they receive a perfect score. We have produced home group studies on DVD, with workbooks, to help you bring your whole church to the place where they are thinking biblically about evangelism. The studies conclude with practical training in how to evangelise. If you would like to purchase a copy of these, please go to www.proclaimthegospel.net or email info@proclaimthegospel.net. Tracts, tools, and teaching DVDs are also available to help you deliver the gospel lovingly, graciously, and uncompromisingly. A copy of the Evangelism Battle Fitness Test can be downloaded from www.proclaimthegospel.net
